

"Small Business is the Engine of Economic Growth."

- Alan G. Poole

IMPACTING LIVES, MAKING A DIFFERENCE, CONTRIBUTING TO NATIONAL DEVELOPMENT!

NAME OF CLIENT:
Princess Cosbert

TYPE OF BUSINESS:
Manufacturing
LOCATION OF BUSINESS:
Farm, East Bank Demerara

HISTORY AND DESCRIPTION OF BUSINESS:

Nine years ago, with just \$20,000 Ms. Princess Cosbert began her entrepreneurial journey by creating her own herbal teas. Recognizing a gap in the Guyanese market for specialized herbal products, she expanded her offerings to include tea drops, gummies, supplements and protein bars and quickly becoming a trailblazer in this industry. Three years into her business she was encouraged to explore IPED's service. However, it was not until she attended a workshop six years ago that she understood the value of IPED and what was available for her business.

BUSINESS CHALLENGES:

Like many growing businesses Princess faced the challenge of accessing adequate financing to meet the increasing demands. As the business expanded so did the need for additional resources to scale operations effectively and maintain exceptional quality.

WHAT WERE THE BENEFITS OBTAINED FROM DOING BUSINESS WITH IPED?

- Confidence to invest and expand
- · Introduction of a new product line
- Access to finance was the most significant impact of IPED's support. It gave Princess the confidence to invest and expand her product line beyond just herbal teas.

WHY WOULD YOU RECOMMENDED IPED TO OTHERS?

As an advocate for IPED, Princess proudly recommends IPED to her friends and family because of the hassle-free prompt and reliable service. She values how she is consistently treated as a valued customer, and her trust in the support she receives is further reinforced by the fact that every person she has referred has successfully secured the much needed assistance and financing for their enterprises.

IMPACTING LIVES, MAKING A DIFFERENCE, CONTRIBUTING TO NATIONAL DEVELOPMENT!

NAME OF CLIENT: Mohanram Moteelall

TYPE OF BUSINESS:
Distribution – Hardware & Electrical
LOCATION OF BUSINESS:

Lot 2660 Recht Door Zee Phase 2 West Bank Demerara

HISTORY AND DESCRIPTION OF BUSINESS:

This client commenced his business with IPED 8 years ago. His first loan was utilized for the stocking of a hardware store that he was renting. With financial support and advisory service, the client was able to expand his business at his own home and is no longer renting. The client sells hardware items, electrical items and provides rental service for cement mixers etc. Relationships were also developed by which the client referred prospective clients to IPED.

BUSINESS CHALLENGES:

One major challenge would be that other competitors (Chinese Hardware) are providing similar services at a very low price.

WHAT WERE THE BENEFITS OBTAINED FROM DOING BUSINESS WITH IPED?

Mr. Moteelall has improved his livelihood since IPED provided finance to his Enterprise enabling him to expand his business and satisfy his customers' demands.

WHY WOULD YOU RECOMMENDED IPED TO OTHERS?

IPED provides financial assistance to businesses, advisory service and timely financing to Enterprises.

VISION

Improved livelihoods by building sustainable micro and small enterprises.

MISSION

IPED provides finance and advisory services to micro and small business entrepreneurs enabling them to build sustainable enterprises.

OBJECTIVES

- To promote a culture of entrepreneurship and to inspire and empower micro and small business owners to build sustainable enterprises.
- To provide timely and adequate financing, technical assistance and business guidance to micro and small business owners to enhance their production potential and capacity to meet their market demands.
- To promote sustainable environmental practices and technologies to micro and small businesses that will mitigate the risks of harm to our environment.
- To build effective partnerships with organizations providing complementary support services to micro and small businesses.
- To provide a work environment where all employees are treated fairly, are adequately compensated, trained and highly motivated towards the achievement of our vision.

Report from the Chairman

I am honored to present the 2024 Annual Report of the Institute of Private Enterprise Development Ltd. (IPED). This Key Achievement in 2024 year has been one of transformation, resilience, and sustained growth. As The following were some of the key we navigate the evolving economic landscape, IPED remains committed to fostering financial inclusion, supporting micro and small enterprises, and advancing sustainable economic development in Guyana.

The Guyanese economy continued to experience rapid expansion, largely driven by the oil and gas sector. In addition, significant growth was also recorded in non-oil sectors, particularly agriculture, manufacturing, and services. These developments coupled with Government investments in infrastructure and energy provided new opportunities for small businesses to integrate into national supply

chains creating value-added products and services for a growing economy. Additionally, regional policies such as CARICOM's Regional Food Security Initiative, are facilitating market expansion opportunities for local enterprises.

To align with these growth trends, IPED has placed strategic emphasis on digital transformation to improve productivity and clients' services, while expanding its range of financial products, and strengthening risk management. This approach will ensure that, in an increasingly dynamic market environment, IPED is well positioned to support its clients' needs for sustainability, growth and competitiveness.

achievements in the year -

- Operational Improvements: The full transition to digital documentation and the implementation of MIMICS software for loan management have enhanced efficiency and security.
- Expansion Initiatives: The completion of new office facilities, including the Cotton Field Branch, has enabled greater accessibility to financing services.
- Enhanced Financial Services: The launch of targeted loan products, including skills-based and migrant business loans, reflects our commitment to financial inclusion.

Report from the Chairman (cont'd)

- strengthened the entrepreneurial areskills of our clients.
- Partnerships: Strengthened collaboration with regional and international stakeholders, including IDB, IFC, · and FAO, to explore funding and capacity-building opportunities.

Results for the year

In the year the company generated a surplus of revenue over expenditure of \$347 million, compared to \$301million in the preceding year. This surplus has contributed significantly to the increase of the Equity Capital of the company to \$4,763 million from \$4,385 million at the I extend my sincere gratitude to end of the previous year.

a net increase of \$451 million.

Looking ahead to 2025:

their business by helping to build their management and technical capacity to realise their goals. A dynamic Small Komal Samaroo Business sector will certainly create the Chairman

· Capacity Building: Business training foundation for a stronger private sector partnerships with key institutions to support national economic growth in such as GTI, NATI, and GRDB have the future. Some of the areas identified

- Expanding financing for technical skills-based entrepreneurs migrant business owners.
- Further automating loan disbursement and repayments.
- Enhancing financial and technical training to empower entrepreneurs.
- Strengthening environmental and sustainability initiatives through green financing.

Acknowledgement

our Board of Directors, who have all volunteered their services to the The balance on the loans receivable company, for their support, guidance portfolio at the end of the year was and commitment to the objectives of \$4,447 million compared to \$3,996 IPED. The management team and staff million at the end of the preceding year, have contributed significantly to the outstanding results for the year, and I want to express my deepest gratitude., I thank our clients for their commitment to IPED's mission and their support and In the coming year, we will build on co-operation as we continue to work for the initiatives undertaken in 2024. We their economic empowerment as they will aim to equip our clients to grow contribute to self-improvement and development across Guyana.

Report from the Chief Executive Officer

"In 2024, IPED processed 5,102 loans valued at \$5,058M, compared to 4,881 loans valued at \$4,283M in 2023."

Independent Auditor's Report

To The Members Of Institute Of Private Enterprise Development On The Financial Statements For The Year Ended December 31 2024

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Institute of Private Enterprise Development Limited (the Institute), which comprise the statement of financial position as at December 31, 2024, the statement of income, statement of other comprehensive income, statement of changes in equity, statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies as set out on pages 29 to 64.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Institute as at December 31, 2024, its financial performance and cash flows for the year then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Institute in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in Guyana, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information in the Annual Report

Management is responsible for the other information. The other information comprises all the information included in the Institute's 2024 annual report, but does not include the financial statements and our auditor's report thereon. The Institute's 2024 annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

Independent Auditor's Report(cont'd)

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Institute's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Institute or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Institute's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Institute's internal control.

Independent Auditor's Report(cont'd)

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists which related to events or conditions that may cast significant doubt on the Institute's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Institute to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

The financial statements comply with the requirements of the Companies Act.

[&]quot;The accompanying notes form an integral part of these financial statements."

Notes to the Financial Statements

FOR THE YEAR ENDED DECEMBER 31, 2024

1. Incorporation and activities

The Institute of Private Enterprise Development Limited (IPED) was incorporated on October 2, 1985 as the Institute of Small Enterprise Development Limited, a name that was subsequently changed on September 10, 1991 to reflect the current name. IPED commenced operations on April 1, 1986. The company is established as a not-for-profit organization and its objects are, but not limited to, enterprise development through the provision of business guidance, technical assistance, training and finance to micro and small business entrepreneurs enabling them to build sustainable enterprises.

2. New and amended standards and interpretations

Effective for the current year end

	Effective for annual periods beginning or or after
New and Amended Standards	
Amendments to IAS 1: Classification of Liabilities as Current or Non-current, and Non-current Liabilities with Covenants	1 January 2024
Amendments to IFRS 16: Lease Liability in a Sale and Leaseback	1 January 2024
Amendments to IAS 7 and IFRS 7: Supplier Finance Arrangements	1 January 2024
Amendments to IAS 12: International Tax Reform—Pillar Two Model Rules	1 January 2024
IFRS S1: General Requirements for Disclosure of Sustainability-related Financial Information	1 January 2024
IFRS S2: Climate-related Disclosures	1 January 2024

Pronouncements effective in future periods available for early adoption

None of these amendments had an impact on the financial statements.

	Effective for annual periods beginning on or after
New and Amended Standards	
Amendments to IAS 21: Lack of Exchangeability	1 January 2025
Amendments to IFRS 9 and IFRS 7	1 January 2026
Annual Improvements to IFRS Standards (Volume 11)	1 January 2026
IFRS 18: Presentation and Disclosures in Financial Statements	1 January 2027
IFRS 19: Subsidiaries without Public Accountability: Disclosures	1 January 2027

The Institute has not opted for early adoption.

None of the foregoing new and amended standards are expected to have a material impact on the financial statements of the Institute.

Notes to the Financial Statements

FOR THE YEAR ENDED DECEMBER 31, 2024

3. Summary of significant accounting policies

(a) Statement of compliance

The financial statements have been prepared in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board and the requirements of the Companies Act of Guyana.

(b) Basis of preparation

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at amortised cost and fair value, as explained in the accounting policies below.

(c) Revenue and expense recognition

The Institute has adopted a conservative approach and recognises interest income from loans on a cash basis, whilst expenses have been recognised on an accrual basis.

(d) Foreign currencies

Transactions in currencies other than Guyana dollars are recorded at the rates of exchange prevailing on the dates of the transactions.

At the end of each reporting period, monetary assets and liabilities denominated in foreign currencies are retranslated to Guyana dollars at the Cambio rates prevailing on that date or at rates agreed by the Bank of Guyana. Non-monetary assets and liabilities carried at fair value that are denominated in foreign currencies are retranslated at rates prevailing on the date when the fair value was determined. Gains and losses arising on retranslation are recognised as revenue or expenditure for the period, except for exchange differences arising on non-monetary assets and liabilities where changes in fair value are recognised in the statement of other comprehensive income.

(e) Borrowing costs

The Institute's borrowings are for working capital purposes. For this purpose all borrowing costs are expensed in the period in which they are incurred.

(f) Defined benefit plan

The Institute participates in a multi-employer defined benefit plan (Demerara Distillers Limited Pension Plan) for its employees. The cost of providing benefits is determined using the Projected Unit Credit Method, with actuarial valuations being carrried out at the end of each reporting period (stated in note 8). The future payments of employee benefits may differ from the estimated amounts due to deviations from assumptions used.

(g) Taxation

The Institute being recognised as an organization of national character in Guyana has been granted tax exempt status under the Income Tax Act. This was passed via regulation no. 7 of 1986 of the Income Tax Act on August 14, 1986 by the Minister of Finance. As such taxation and deferred tax are not considered in the preparation of these financial statements.

(h) Property, plant and equipment

(i) Property, plant and equipment are held for use in the supply of services and for administrative purposes and are stated in the statement of financial position at cost less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

Notes to the Financial Statements

FOR THE YEAR ENDED DECEMBER 31, 2024

3. Summary of significant accounting policies cont'd

(h) Property, plant and equipment cont'd

Depreciation of property, plant and equipment is calculated on the straight line method at rates sufficient to write off the cost or valuation of these assets to their residual values over their estimated useful lives as follows:

Building	-	2%
Office furniture	=	15%
Fixtures and fittings	-	15%
Office machinery	-	20%
Motor vehicles	-	25%
Computers and hardware	=	50%
Right of use asset - land leases	-	2%
Right of use asset - properties	-	10% - 20%

(ii) Leases

The Institute assesses whether a contract is or contains a lease, at inception of the contract. The Institute recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value. For these leases, the Institute recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the Institute uses its incremental borrowing rate.

Lease payments included in the measurement of the lease liability comprise:

- Fixed lease payments (including in-substance fixed payments), less any lease incentives receivable:
- Variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- The amount expected to be payable by the Institute under residual value guarantees;
- The exercise price of purchase options, if the Institute is reasonably certain to exercise the options; and
- Payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease.

The lease liability is presented under other liabilities in the statement of financial position.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

The Institute remeasures the lease liability (and makes a corresponding adjustment to the related right-of-use asset) whenever:

Notes to the Financial Statements

FOR THE YEAR ENDED DECEMBER 31, 2024

3. Summary of significant accounting policies cont'd

(h) Property, plant and equipment cont'd

(ii) Leases cont'd

- The lease term has changed or there is a significant event or change in circumstances resulting in a change in the assessment of exercise of a purchase option, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate.
- The lease payments change due to changes in an index or rate or a change in expected payment under a guaranteed residual value, in which cases the lease liability is remeasured by discounting the revised lease payments using an unchanged discount rate (unless the lease payments change is due to a change in a floating interest rate, in which case a revised discount rate is used).
- A lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

The right-of-use assets comprise the initial measurement of the corresponding lease liability, lease payments made at or before the commencement day, less any lease incentives received and any initial direct costs. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated over the shorter period of lease term and useful life of the underlying asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Institute expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

The right-of-use assets are presented as under Property, Plant and Equipment in the statement of financial position.

The Institute applies IAS 36 to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss as described in the 'Property, Plant and Equipment' policy.

(i) Intangible asset

Intangible assets acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised over a straight line basis over their useful lives. The estimated useful lives and amortisation method are reviewed at the end of each annual reporting period.

(j) Inventories

Inventories are valued at the lower of cost and net realizable value based on the first-in-first-out method.

Notes to the Financial Statements

FOR THE YEAR ENDED DECEMBER 31, 2024

3. Summary of significant accounting policies cont'd

(k) Provisions

Provisions are recognised when the Institute has a present obligation (legal or constructive) as a result of a past event, it is probable that the Institute will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as provision is the best estimate of the consideration required to settle the present obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flow estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

(I) Investments

Investments are recognised and derecognised on the trade date where the purchase or sale of an investment is under a contract whose terms require delivery of the investment within the timeframe established by the market concerned, and are initially measured at fair value, plus transaction costs. Investment income have been recognised on an accrual basis.

"Investments" are carried at amortised cost and fair value throught Other Comprehensive Income. Any gain or loss on these investments is recognised as income or expenditure when the asset is derecognised or impaired.

(m) Financial assets

The Institute classifies its financial assets into the following measurement categories:

- those to be measured subsequently at fair value through other comprehensive income (FVTOCI), and
- those to be measured at amortised cost.

Financial assets are classified and measured at fair value through other comprehensive income if they are held in a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets.

Financial assets are measured at amortised cost if the assets meet the following conditions (and are not designated as fair value through profit or loss):

- they are held within a business model whose objective is to hold the financial assets and collect its contractual cash flows
- the contractual terms of the financial assets give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding

After initial recognition, these are measured at amortised cost using the effective interest method. Discounting is omitted where the effect of discounting is immaterial. The Institute's loan receivables, investments, other receivables and cash and cash equivalents fall into this category of financial instruments.

Notes to the Financial Statements

FOR THE YEAR ENDED DECEMBER 31, 2024

3. Summary of significant accounting policies cont'd

(n) Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial asset and allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts the estimated future cash receipts (including all fees on points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset, or, where appropriate, a shorter period.

Income is recognised on an effective interest basis for bond investments only.

(o) Loans receivable

Loans to customers that have fixed or determinable payments and which are not quoted in an active market, are classified as loans receivable. Loans receivable are measured at amortised cost using the effective interest method, less any impairment.

Loans receivable are recognised when cash is advanced to borrowers and are derecognised when borrowers repay their obligations or when written off.

(p) Impairment of financial assets

The Institute will recognise a loss allowance for expected credit losses on the financial assets that are measured at amortised cost at each reporting date. At the reporting date, if the credit risk on a financial asset has not increased significantly since initial recognition, the Institute will measure the loss allowance at an amount equal to 12 month expected credit losses. However, the Institute will measure the loss allowance for the financial asset at an amount equal to the lifetime expected credit losses if the credit risk on that financial asset has increased significantly since initial recognition.

The Institute will compare the risk of a default occurring on the financial asset at the reporting date with the risk of a default occurring on the financial asset as at the date of initial recognition and consider reasonable and supportable information that is indicative of significant increases in credit risk since initial recognition. A financial asset is credit-impaired when one or more events have occurred that have a detrimental impact on the expected future cash flows of the financial asset. It includes observable data that has come to the attention of the Institute about the following events:

- 1. significant financial difficulty of the borrower;
- 2. a breach of contract, such as a default or past-due event;
- the lenders for economic or contractual reasons relating to the borrower's financial difficulty granting the borrower a concession that would not otherwise be considered;
- 4. it becoming probable that the borrower will enter bankruptcy or other financial reorganization;
- 5. the disappearance of an active market for the financial asset because of financial difficulties; or
- 6. the purchase or origination of a financial asset at a deep discount that reflects incurred credit losses.

For certain assets such as loans receivable, the credit risk would be considered as significantly increased since initial recognition when contractual payments are more than 30 days past due.

Notes to the Financial Statements

FOR THE YEAR ENDED DECEMBER 31, 2024

3. Summary of significant accounting policies cont'd

(p) Impairment of financial assets cont'd

The carrying amount of the financial asset is reduced through the use of an allowance account. When a financial asset is determined to be uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognised in the statement of income. In a subsequent period, if the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed to the extent that the carrying amount of the financial asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

Impairment of tangible assets

At the end of each reporting period, the Institute reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Institute estimates the recoverable amount of the cash-generating unit to which the asset belongs.

The recoverable amount is the higher of fair value less costs to sell and value in use. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised immediately in the statement of income, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

(q) Derecognition of financial assets

The Institute derecognises a financial asset only when the contractual rights to the cash flows from the asset expire; or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Institute neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Institute recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Institute retains substantially all the risks and rewards of ownership of a transferred financial asset, the Institute continues to recognise the financial asset and also recognises a collateralized borrowing for the proceeds received.

(r) Financial liabilities

The Institute's financial liabilities are classified as financial liabilities at amortised cost.

(s) Classification as a debt or equity instrument

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangement.

Financial liabilities, including borrowings, are initially measured at fair value, net of transaction costs.

Financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense is recognised on an effective yield basis.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or where appropriate, a shorter period.

The Institute derecognises financial liabilities when the Institute's obligations are discharged, cancelled or they expire.

Notes to the Financial Statements

FOR THE YEAR ENDED DECEMBER 31, 2024

3. Summary of significant accounting policies cont'd

(t) Cash resources

Cash resources are held for the purpose of meeting short-term cash commitments rather than investments or other purposes. These are readily convertible to known amounts of cash, with maturity dates of three (3) months or less.

(u) Business reporting divisions

A business segment is a component of an entity that is engaged in providing products or services that are subject to risks and returns that are different from those of other business segments. A geographical segment is engaged in providing products or a service within a particular economic environment that are subject to risks and returns that are different from those of segments operating in other economic environments.

The Institute's operations are considered a single business unit.

4. Critical accounting judgements and key sources of estimation uncertainty

In the application of the Institute's accounting policies, which are described in note 3, the Directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities in the financial statements:

i) Impairment losses on loans receivable

On a regular basis, management reviews receivables to assess impairment. Based on information available certain judgements are made that reflect the Institute's assessment of several critical factors that can influence future cash flows

ii) Useful lives of property, equipment and intangible assets

Management reviews the estimated useful lives of property, equipment and intangible assets at the end of each year to determine whether the useful lives of property, plant and equipment and intangible assets should remain the same.

iii) Defined benefit asset

The provisions for defined benefit asset are determined by the actuary based on data provided by management. The computation of the provisions by the actuary assumes that the data provided is not materially misstated.

iv) Impairment of Financial Assets

Management makes judgement at the end of each reporting period to determine whether financial assets are impaired. Financial assets are impaired when the carrying value is greater than the recoverable amount and there is objective evidence of impairment.

Notes to the Financial Statements

FOR THE YEAR ENDED DECEMBER 31, 2024

8. DEFINED BENEFIT ASSET

The Institute participates in a defined benefit plan (Demerara Distillers Limited Pension Plan) for its employees. The contributions are held in trustee administered funds which are separate from the Institute's resources, 84 (2023 - 78) employees participate in the plan.

During the year, the Institute's contribution to the scheme was G\$27,659,000 (2023 - G\$24,681,000).

The most recent actuarial valuation of the plan assets and the present value of the defined benefit obligation were carried out as at 31 December 2024 by Bacon Woodrow & de Souza Limited. The present valuation of the defined benefit obligation and the related current service cost were measured at 31 December 2024 using the Projected Unit Credit Method.

	2024	2023
	G\$	G\$
Amounts in the statement of financial position:		
Defined benefit obligation	590,852,000	630,590,000
Fair value of plan assets	(1,160,909,000)	(1,132,460,000)
Net defined benefit asset	570,057,000	501,870,000
Reconciliation of amount recognised in the statement of financial position:		
Movement in Present value of defined benefit obligation		
Defined benefit obligation at start	630,590,000	514,350,000
Service cost	30,640,000	28,226,000
Interest cost	31,068,000	25,389,000
Members' contributions	10,219,000	9,145,000
Re-measurements		
Experience adjustments	(92,970,000)	66,781,000
Benefits paid	(18,695,000)	(13,301,000)
	590,852,000	630,590,000
Movement in fair value of plan assets		
Plan assets at start of year	1,132,460,000	1,176,250,000
Expected return on plan assets	57,097,000	59,319,000
Return on plan assets, excluding interest income	(47,831,000)	(123,634,000)
Company contributions	27,659,000	24,681,000
Members' contributions	10,219,000	9,145,000
Benefits paid	(18,695,000)	(13,301,000)
	1,160,909,000	1,132,460,000

8. DEFINED BENEFIT ASSET CONT'D

Summary of Principal assumptions:	2024	2023
	Per	Per
	annum	annum
Principal actuarial assumptions used:	%	%
Discount rate	5	5
Rate of salary increases	5	5
Future pension increases	2	2
Life expectancy at age 60 for current pensioner in years		
Male	22.0	21.9
Female	26.2	26.2
Life expectancy at age 60 for current members age 40 in years		
Male	22.8	22.8
Female	27.1	27.1

Sensitivity Analysis

	170 pa	170 pa
	increase \$	increase \$
The impact on profit of changes in the assumptions used	million	million
Discount rate	(109,426,000)	158,506,000
Future salary increases	43,442,000	(36,146,000)

An increase of 1 year in the assumed life expectancies shown above would increase the defined benefit obligation at 31 December 2024 by \$11,280,000.

9. CASH RESOURCES

	2024	2023
	G\$	G\$
Cash in hand	1,472,692	1,903,042
Cash at banks	73,719,985	97,663,872
	75,192,677	99,566,914

		4,539,904,238	4,156,273,779
(a)	Impairment allowances		
	Individually assessed impairment		
	At 1 January	159,320,483	109,587,806
	Provision for the year	37,802,734	83,541,295
	Bad debts written off	(104,274,091)	(33,808,618)
	At December 31	92,849,126	159,320,483

The undiscounted fair value of collateral that the Institute holds relating to loans individually determined to be impaired at December 31, 2024 amounted to G\$152M (2023: G\$196M). The collateral consists of cash, securities and properties.

Collateral realised

During the year, the Institute realised collateral amounting to G\$0 (2023: G\$1,350,000).

Judgement obtained

During the year, the Institute obtained judgement from the high court amounting to G\$13,710,458 (2023: G\$43,359,739).

Notes to the Financial Statements

FOR THE YEAR ENDED DECEMBER 31, 2024

13. INTANGIBLE ASSETS

Cost	2024 G\$	2023 G\$
At 1 January Additions	26,033,799 -	25,063,887 969,912
As at 31 December	26,033,799	26,033,799
Amortisation		
At 1 January	24.880.039	21,068,609
Charges for the year	498,984	3,811,430
As at 31 December	25,379,023	24,880,039
Net book value:		
As at 31 December	654,776	1,153,760

The intangible assets represent payments for the development and improvements of the Institute's website and other Management Information System software, this is being amortised over a period of four years.

14. OTHER ASSETS

	G\$	G\$
Prepayments	18,196,577	18,973,476
Inventory	2,462,486	2,315,167
Others	35,401,886	6,327,377
	56,060,949	27,616,020

15. EQUITY

(a) Capital Donations	2024	2023
	G\$	G\$

Donations at 31 December

256,497,733 256,497,733

2024

2023

- (i) Capital donations received were used to extend credit to micro enterprises for the purpose of providing support to increase the productivity and employment generation of the micro enterprise sector. These donations are not repayable to the donor agencies.
- (ii) The Institute currently has 10 Members all of whom have equal voting rights. Members are not entitled to any distribution of surpluses.

(b) Other Reserve	2024	2023
	G\$	G\$
Other reserve at 31 December	(7,880,562)	6,804,237

The other reserve represents the fair value adjustment arising from changes in the fair value of equity investments. This adjustment was recognised through OCI to reflect the Institute's equity investment portfolio's fair value changes that are not realised through profit or loss.

⁽ii) Refer to note 17(iv) for details of lease agreements.

20. FINANCIAL RISK MANAGEMENT

20.1 Objectives

Risk is inherent in the Institute's activities but is managed through a process of ongoing identification, measurement and monitoring subject to risk limits and other controls. The process of risk management is critical to the Institute's continued growth and performance. The Institute is exposed to liquidity risk, credit risk, operating risk and market risk.

20.2 Risk Management Structure

The Board of Directors is ultimately responsible for identifying and controlling risks; however, there are separate independent Sub-Committees responsible for managing and monitoring risk.

Notes to the Financial Statements

FOR THE YEAR ENDED DECEMBER 31, 2024

20. FINANCIAL RISK MANAGEMENT CONT"D

20.3 Board credit and investment committee

This committee is comprised of six (6) Non-Executive Directors. The committee is responsible for the approval of all credits and investments over limits delegated to management. The committee also reviews the amount, nature, risk characteristics and concentration of the Institute's credit and investment portfolio and ensures appropriate responses to changing conditions.

20.4 Internal audit

Risk management processes throughout the Institute are audited by the internal audit function that examines both the adequacy of the procedures and the Institute's compliance with the procedures. Internal Audit discusses the results of all assessments with management, and reports its findings and recommendations to the Board's Audit Committee.

20.5 Risk measurement and reporting systems

The Institute's risks are measured using methods which reflect the expected loss likely to arise in normal circumstances.

Monitoring and controlling risks is primarily performed based on limits established by the Board. These limits reflect the business strategy and market environment of the Institute as well as the level of risk that the Company is willing to accept, with additional emphasis on selected industries and geographies.

Information compiled from all the business units is examined and processed in order to analyze, control and identify risks early. This information which consists of several reports is presented and explained to the Board of Directors and Board Committees on a monthly basis.

(a) Market risk

The Institute's activities expose it to the financial risks of changes in foreign currency exchange rates and interest rates. The Institute uses interest rate sensitivity and exposure limits to financial instruments to manage its exposure to interest rate and foreign currency risk. There has been no change in the Institute's exposure to market risks or the manner in which it manages these risks.

(i) Interest rate sensitivity analysis.

The sensitivity analysis below have been determined based on the exposure to interest rates for all financial instruments at the end of the reporting period. The analysis is prepared assuming the amounts of the financial instruments at the end of the reporting period was in existence throughout the whole year. A 2.5% increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 2.5% higher/lower and all other variables were held constant, the Institute's surplus for the year ended 31 December 2024 would increase/decrease by G\$26,620,847 (2023: G\$26,605,918).

Notes to the Financial Statements

FOR THE YEAR ENDED DECEMBER 31, 2024

20. FINANCIAL RISK MANAGEMENT CONT'D

(a) Market risk cont'd

(i) Interest rate sensitivity analysis.

The Institute's sensitivity to interest rates has increased during the current period mainly due to the increase in borrowings.

The Institute's investments are not subject to interest rate sensitivity since they are held to maturity at a fixed rate of interest.

(ii) Interest rate risk

Interest rate risk is the risk that the value of financial instruments will fluctuate due to changes in market interest rates. The Institute is exposed to various risks that are associated with the effects in interest rates. This impacts directly on its cash flows.

The Institute's management continually monitors and manages these risks through the use of appropriate tools and implements relevant strategies to hedge against any adverse effects.

Foreign currency sensitivity analysis

Notes to the Financial Statements

FOR THE YEAR ENDED DECEMBER 31, 2024

20. FINANCIAL RISK MANAGEMENT CONT'D

a) Market risk cont'd

iii) Foreign currency risk cont'd

The following table details the company's sensitivity to a 2.5% increase and decrease in the Guyana dollar against balances denominated in foreign currencies.

The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 2.5% change in foreign currency rates. A positive number indicates an increase in surplus/deficit where foreign currencies strengthens 2.5% against the G\$. For a 2.5% weakening of the foreign currencies against G\$ there would be an equal and opposite impact on the profit, and the balances below would be negative.

	2024	2023	
Surplus:	G\$	G\$	
Canadian Dollars	13,431	14,034	
United States Dollars	12,245,576	15,373,618	

(b) Liquidity risk

Liquidity risk is the risk that the Institute will encounter difficulty in raising funds to meet its commitments associated with financial instruments. The Institute manages its liquidity risk by maintaining an appropriate level of resources in liquid or near liquid form.

The following table shows the distribution of liabilities by maturity:

Maturing
31.12.2024

Notes to the Financial Statements

FOR THE YEAR ENDED DECEMBER 31, 2024

20. FINANCIAL RISK MANAGEMENT CONT'D

(c) Credit risk

The table below shows the Institute's maximum exposure to credit risk.

Gross maximum exposure:	2024 G\$	2023 G\$
Investments	495,027,885	499,134,709
Loans receivable	4,447,055,112	3,996,953,296
Other receivables	35,401,886	6,327,377
Cash resources	73,719,985	97,663,872
Total credit risk exposure	5,051,204,868	4,600,079,254

Where financial instruments are recorded at fair value the amounts shown above represents the current credit risk exposure but not the maximum risk exposure that could arise in the future as a result of changes in values.

Collateral and other enhancements

The Institute maintains credit risk exposure within acceptable parameters through the use of collateral as a risk-mitigation tool for certain types of loans. The amounts and type of collateral required depends on an assessment of the credit risk of the counterparty. Our small loan facility uses mortgages on real estate and Bill of sales on motor vehicles and field equipments while Micro loan facility uses Bill of sales on household assets.

The main types of collateral obtained are cash or securities, charges over real estate properties, inventory and trade receivables and mortgages over residential properties.

Management monitors the market value of collateral, request additional collateral in accordance with the underlying agreement, and monitors the market value of collateral obtained during its review of the adequacy of the allowance for impairment losses.

It is the Institute's policy to dispose of repossessed properties in an orderly fashion. The proceeds are used to repay the outstanding claim. In general, the Institute does not occupy repossessed properties for business use.

Concentration of risk is managed by client/counterparty, by geographical region and by industry sector as detailed in the following:

(i) Geographical sectors

The Institute's maximum credit exposure, after taking account of credit loss provisions established but before taking into account any collateral held and other credit enhancements, can be analysed by the following geographical sectors based on the country of domicile of our counterparties:

	2024 2023 G\$ G\$	
Guyana	4,733,222,941 4,101,069,170	
Regional	19,100,740 37,580,734

Notes to the Financial Statements

FOR THE YEAR ENDED DECEMBER 31, 2024

20. FINANCIAL RISK MANAGEMENT CONT'D

(c) Credit risk cont'd

Investments-bonds

The debt securities within the Institute's investments security portfolio are exposed to credit risk. The credit quality of each individual security is internally assessed based on the financial strength, reputation and market position of the issuing company and the ability of that company to service the debt. The level of credit risk thus assessed and associated with the security is assigned to a risk premium. These premiums are defined as follows:

Superior: Government and Government Guaranteed securities and securities secured by a

letter of comfort from the Government. These securities are considered risk free.

Desirable: Corporate securities that are current and being serviced in accordance with the terms

and conditions of the underlying agreements. Issuing company has good financial

strength and reputation.

Acceptable: Corporate securities that are current and being serviced in accordance with the terms

and conditions of the underlying agreements. Issuing company has fair financial

strength and reputation.

Sub-standard: These securities are either more than 90 days in arrears but are not considered

impaired, or have been restructured in the past financial year.

The table below illustrates the credit quality of debt and equity investments as at December 31:

	Superior	Desirable	Acceptable	Sub- standard	Total
Financial Investments: Amortized Cost and Fair Value	G\$	G\$	G\$	G\$	G\$
2024	19,100,740	475,927,145	-	_	495,027,885
2023	19,199,500	461,553,975	-	18,381,234	499,134,709

Loans receivable

The credit quality of loans receivable and advances is internally determined from an assessment of the counterparty based on a combination of factors. These include the level and strength of experience of management, the track record and level of supervision required for the existing facilities of the company, the financial and leverage position of the borrower, the estimated continued profitability of the borrower and the ability of that borrower to service its debts, the stability of the industry within which the company operates and the competitive advantage held by the borrower in the market. The overall level of risk thus assessed is assigned a credit score which indicates the overall quality of the borrower. The quality of the borrower that are neither past due nor impaired are defined as follows:

Superior: These counterparties have strong financial position. Facilities are well secured, and

business has proven track record.

Desirable: These counterparties have good financial position. Facilities are reasonably secured,

and underlying business is performing well.

Acceptable: These counterparties are of average risk with a fair financial position. Business may be

new or industry may be subject to more volatility, and facilities typically have lower levels

of security.

Sub-standard: Past due or individually impaired.

Notes to the Financial Statements

While the foregoing is past due they are still considered to be collectible in full.

Notes to the Financial Statements

FOR THE YEAR ENDED DECEMBER 31, 2024

20. FINANCIAL RISK MANAGEMENT CONT'D

(c) Credit risk cont'd

Ageing of impaired receivable	es
-------------------------------	----

	Principal	Exposure	Provision
2024	G\$	G\$	G\$
181-365 days	28,142,673	10,687,209	10,687,209
over 365 days	72,921,187	13,420,224	13,420,224
	101,063,860	24,107,433	24,107,433
2023			_
181-365 days	51,614,133	33,844,019	33,844,019
over 365 days	109,377,400	25,020,988	25,020,988
	160,991,533	58,865,007	58,865,007

Cash resources

The credit quality of balances due from other banks is assessed by the bank according to the level of creditworthiness of the institution. The credit quality of these balances has been analysed into the following categories:

Superior:	These institutions have been accorded the highest rating, indicating that the institution's
Suberior.	These institutions have been accorded the highest fating, indicating that the institution's

capacity to meet its financial commitment on the obligation is extremely strong.

Desirable: These institutions have been accorded the second-highest rating, indicating that the

institution's capacity to meet its financial commitment on the obligation is very strong.

Acceptable: These institutions have been accorded the third-highest rating, indicating that the

institution's capacity to meet its financial commitment on the obligation is adequate.

The table below illustrates the credit quality of cash resources due from banks as at December 31:

	Superior G\$	Desirable G\$	Acceptable G\$	Total G\$
2024	73,719,985	-	-	73,719,985
2023	97,663,872	-	-	97,663,872

(d) Operational risk

Operational risk is inherent to all business activities and is the potential for financial or reputational loss arising from inadequate or failed internal controls, operational processes or the systems that support them. It includes errors, omission, disasters and deliberate acts such as fraud.

The Institute recognises that such risk can never be entirely eliminated and manages the risk through a combination of systems and procedures to monitor and document transactions. The Institute's operational risk committee oversees this and where appropriate, risk is transferred by the placement of adequate insurance coverage.

Notes to the Financial Statements

FOR THE YEAR ENDED DECEMBER 31, 2024

21. Fair value of financial instruments

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

IFRS 13 requires fair value of assets and liabilities to be determined based on the following hierarchy:

Level 1- quoted prices (unadjusted) in active markets for identical assets and liabilities.

Level 2- inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).

Level 3- inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

Fair values have been determined as follows:

		2024		2023	
	IFRS 13 Level	Carrying value	Market Value	Carrying value	Market Value
Assets		G\$	G\$	G\$	G\$
Cash resources	1	75,192,677	75,192,677	99,566,914	99,566,914
Investments	2	495,027,885	495,590,343	499,134,709	613,354,423
Loans receivable	3	4,447,055,112	4,447,055,112	3,996,953,296	3,996,953,296
Intangible asset	3	654,776	654,776	1,153,760	1,153,760
Other assets	3	53,598,463	53,598,463	25,300,853	25,300,853
		5,071,528,913	5,072,091,371	4,622,109,532	4,736,329,246
Liabilities					
Loans payable	2	372,926,788	372,926,788	402,553,432	402,553,432
Other payables and accruals	5 2	375,128,970	375,128,970	210,428,123	210,428,123
Bank overdraft (secured)	1	616,714,427	616,714,427	562,116,358	562,116,358
		1,364,770,185	1,364,770,185	1,175,097,913	1,175,097,913

Valuation techniques and assumptions applied for the purposes of measuring fair value:

The fair value of assets and liabilities were determined as follows:

- (a) The fair values of financial assets and financial liabilities with standard terms and conditions and traded on active liquid markets were determined with reference to quoted market prices. Quoted market prices were obtained from independent market.
- (b) The fair value of loans receivables were determined in accordance with the Institute's past experience with delinquent loans and have taken into account probability of defaults.
- Property, plant and equipment are carried at cost less accumulated depreciation and impairment losses.

 Management determines depreciation rates sufficient to write off the costs of assets over their estimated useful lives
- (d) Assets and liabilities where the carrying amounts are equal to fair value due to their short-term maturity, the carrying value of certain assets and liabilities approximates their fair value. These include cash resources, other assets, other payables and accruals and bank overdraft.
- (e) Loans and lease payable are fixed by contract and directors estimate there is no difference between the carrying amount and fair value.

Notes to the Financial Statements

FOR THE YEAR ENDED DECEMBER 31, 2024

22. Pending Litigation

The Institute is a party to several legal actions in relation to loans which are currently before the Court, the outcome of which cannot be determined at this stage.

23. Capital Commitments

2024	2023
G\$	G\$
38,479,489	90,660,497

Contracted for but not received

24. Approval of Financial Statements

The financial statements were approved by the Board of Directors and authorised for issue on January 21, 2025.

IPED is a not for profit, tax exempt, non-governmental organization recognized as an Institution of national character providing finance and advisory services to micro and small business entrepreneurs in Guyana.
